OUR STORY

Inspired by Blooming New Life

Young mother Lorie Collins names her two daughters as her greatest inspiration in the creation of Lil 'O' Blossom products. When her first newborn experienced extreme skin irritation, Collins' life passion turned to creating a safe and soothing skin product for her. After trying a plethora of all natural, organic, and sensitive skin treatments, she collaborated with trusted skin care professionals to concoct something especially calming and also luxurious.

The name Lil 'O' Blossom stems from her belief that babies and children are precious "little blossoms" that naturally bloom and flourish. The delicate Cherry Blossom motif invites us to live a life of beauty, being kind and loving every moment.

THE LIL 'O' BLOSSOM DIFFERENCE
